

Whether you want to honor your pet or memorialize a loved one, the new commemorative brick paver program at the dog park located in

Tavares will give you the opportunity to permanently engrave your message for all to see.

The City of Tavares developed this program due to the high volume of requests from individuals who wanted to commemorate a beloved pet with a brick paver within the park. With a minimum donation of only \$40, this has been made possible. Not only will your beloved pet be honored in a permanent way, but the donated funds will go towards our continuing efforts for improvements within the dog park.

See inside pamphlet for instructions.
