AMOUNT

Economic Injury Disaster Loan (EIDL)

- The maximum loan size is \$2 million.
- Applicants who apply for this loan may request an advance Emergency EIDL grant of up to \$10,000 from the SBA.

Paycheck Protection Program (PPP)

- Loans can be up to 2.5 x the borrower's average monthly payroll costs, not to exceed \$10 million.

How to Calculate:

1. Aggregate payroll costs (defined in detail below) from the last twelve months for employees whose principal place of residence is the United States.
2. Subtract any compensation paid to an employee in excess of an annual salary of \$100,000 and/or any amounts paid to an independent contractor or sole proprietor in excess of \$100,000 per year.
3. Calculate average monthly payroll costs (divide the amount from Step 2 by 12).
4. Multiply the average monthly payroll costs from Step 3 by 2.5.
5. Add the outstanding amount of an Economic Injury Disaster Loan (EIDL) made between January 31, 2020 and April 3, 2020, less the amount of any "advance" under an EIDL COVID-19 loan (because it does not have to be repaid).

Seasonal business may use the period February 15, 2019 – June 30, 2019 or March 1, 2019 – June 30, 2019 to calculate the average payroll.

"Payroll" includes:

- Compensation to employees (whose principal place of residence is the United States) in the form of salary, wages, commissions, or similar compensation
